#### 4.5 Organizational chart

#### **4.6 Institutional Governance**

A flexible governance mechanism allows the institution to make significant strides towards the realization of its goals. Governance is based on the themes of:

- **Autonomy and oversight**

Each school and administrative function sets their own individual strategies along with the Vice-Chancellor of the institution. Along with the strategy, a set of targets and boundary conditions are prescribed against which the progress towards the realization of the strategy is measured.

- **Synergy between academia and administration**

Administrative and administrative tracks are kept separate since the people requirements of individuals in the two tracks are different. Shared services (HR, finance, payroll management, estate management, international relations, etc.) centres are established and operated that service all the faculties.

- **Transparency and accountability**

Transparency is present at two levels – institution to external stakeholders and within the institution. For external stakeholders, annual reports, research publications, academic and process reports are published. Internally, a 360-degree feedback process along with recourse for appraisals is present. To ensure accountability, targets are set every year during the strategy decision phase, against which each function is measured.

- **External advisory**

Statutory academic bodies like the Board of Management, Academic Council, and Boards of Studies are represented by external members from academia and industry who provide useful inputs which are incorporated into the system.

- **Faculty input**

All the statutory bodies of the institute have faculty members representation as mandated by the UGC regulations.

The apex governing body is **Board of Management** and its key functions are:

- To establish, on the advice of academic council, divisions and departments for the academic work and functions of the Institute and to allocate area of study, teaching and research to them.

- To transfer or accept transfers of any movable or immovable property on behalf of the Institute:
  - To manage regulate, and administer the revenue, the Finance, accounts, investments, properties, business and all other administrative affairs of the Institute and for that the purpose to appoint such agent or agents as it may deem fit.

### **Academic Council**

The Academic Council shall be the principal academic body of the Institute and shall, subject to the provisions of the rules, have the control over and be responsible for the maintenance of standards of teaching, research and training, approval of syllabi, coordination of the research activities, examinations and tests within the institute and shall exercise such powers and perform such other duties and functions as may be prescribed or conferred upon it by the Rules of the Institution

The prime task of the IQAC is to develop a system for conscious, consistent and catalytic improvement in the overall performance of institutions.

### **Saksham**

UNESCO declares that the concept of gender sensitivity has been developed as a way to reduce barriers to personal and economic development created by sexism. Gender sensitivity helps to generate respect for the individual regardless of sex. Gender sensitivity is not about pitting women against men. On the contrary, education that is gender sensitive benefits members of both sexes. It helps them determine which assumptions in matters of gender are valid and which are stereotyped generalizations. Gender awareness requires not only intellectual effort but also sensitivity and open-mindedness. It opens up the widest possible range of life options for both women and men.

As per the requirements of the UGC- SAKSHAM initiative Gender sensitization and Self defense workshop was organized at the SRM Institute of Science and Technology (SRMIST) Vadapalani campus. The following are the activities conducted as a part of the SAKSHAM initiative in the Vadapalani campus.
